

# Dolphin Research Volunteer & Internship Project, Spain

Located in the town of O Grove, volunteers and interns will have the opportunity to contribute to bottlenose dolphin, whale & porpoise conservation whilst gaining hands on field and laboratory experience.

Dolphin research volunteers in Spain will assist with data collection while on board the research boat, help to locate and keep track of dolphin groups and collect environmental information. Back in the lab, volunteers will assist with restocking field supplies and transcribing data sheets.

Dolphin research Interns will work alongside the chief biologist and other experienced researchers in order to collect bottlenose dolphin data. Working with a mentor, interns will gain field and laboratory experience using various scientific methods. Whilst in the lab, interns will assist with the transcription of collected data, perform photo-identification analysis, use various software, maintain the vessel and more.

## Dates

We have places for volunteers to join for 1 or more weeks, and interns to join for 30 days or longer.

## Requirements

Volunteers should be at least 18 years of age and have a strong interest in dolphin/marine research. Interns should be currently studying or hold a degree in biology or a similar field. Enthusiasm is essential as well as an open-mindedness to work, live and communicate with other volunteers of mixed nationality and background.

## Costs

For volunteers, the total cost for a 1-week stay ranges from £650 to £780 GB pounds (Estimated price based on Euro to GBP conversion). For interns, the cost for 30 days ranges from £1450 to £1700 GB pounds (Estimated price). These costs include a £180 pounds payment payable with your application, and a balance payment to be paid in Euros.
